EVERGREENS

We have one of the largest stocks and best assortments of evergreens in the Southwest. Most evergreens, to be handled successfully, should be moved with a ball of earth around the roots, B. & B., or balled and burlapped, as we call it. This makes it too expensive to be shipped by express, hence only the smaller ones can go by express or mail. Where larger plants or larger numbers are needed, we can usually arrange to deliver by truck or through our local dealer in most of the cities or towns within a radius of 200 miles of Fort Worth. Many of our customers outside of Fort Worth come in their own cars and carry the plants home. This is a very satisfactory way of getting balled evergreens fresh and handled with a minimum of cost or damage.

When convenient, visitors should come to the nursery and make their own selection.
